Til generel lydtræning og ordforrådstræning til temaet ”frugt og grønt”

Fremgangsmåde: Udvælg den/de lyde/ord som du gerne vil arbejde med. Dette spil kan nemt tilpasses det enkelte barn og man kan sagtens arbejde med flere lyde på én gang, afhængigt af hvilke lyde/ord der bøvler hos barnet.

Print de målord ud som du vil arbejde med, klip billederne ud og placér frugten med bagsiden opad. Barnet skal trække ét stykke frugt ad gangen, benævne ordet og herefter placere frugten i blenderen.

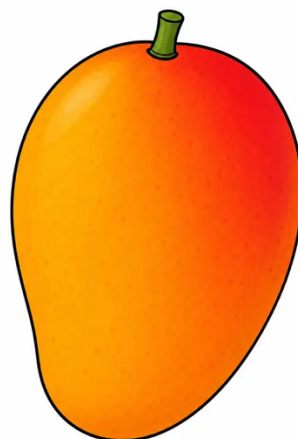

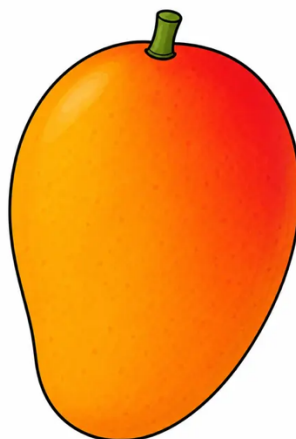

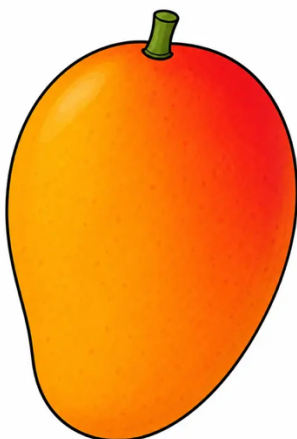

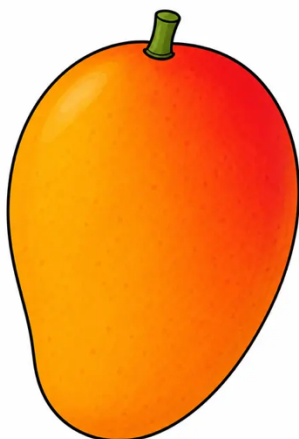

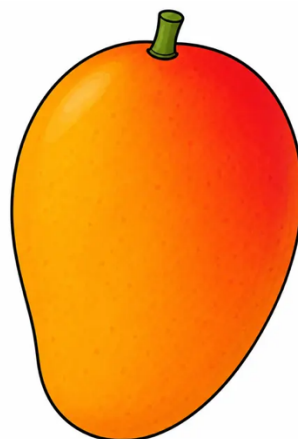

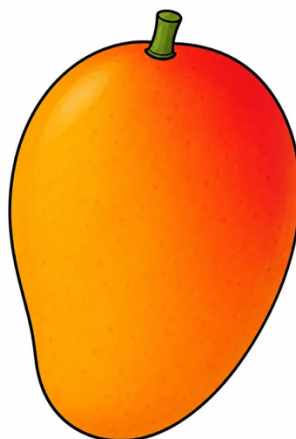

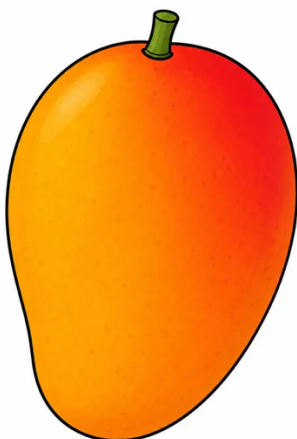

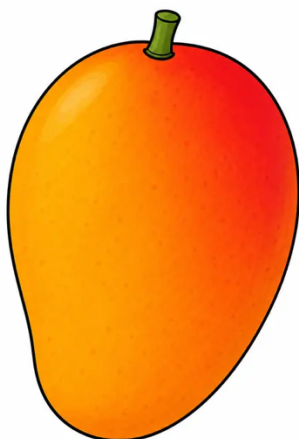

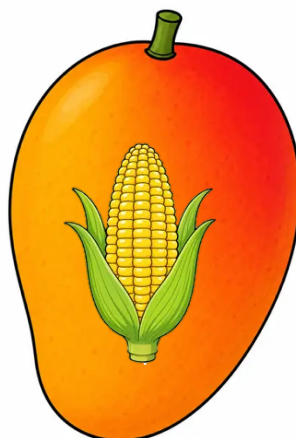

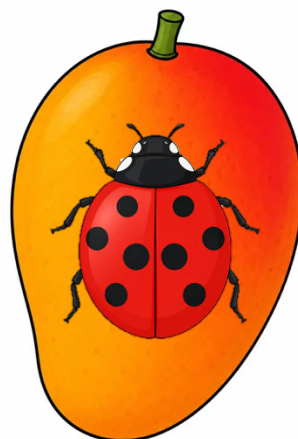

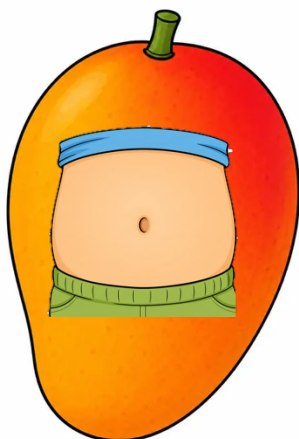

Til ordforrådstræning: Spillet indeholder både ”tomt” frugt og frugt med billeder. Den tomme frugt er særligt tiltænkt ordforrådstræning. Hvis barnet trækker et tomt stykke frugt, skal barnet nemlig benævne frugten fx ”hindbær”, ”mango”, ”jordbær” osv. Klip flere billeder ud af det samme stykke frugt – dette giver nemlig mulighed for masser af gentagelser. Samtidig indbyder spillet til masser af dialog om den enkelte frugt – Hvad hedder den? Hvordan smager den? Er den sur eller sød? Osv.

Til fonologitræning: Hvis man arbejder med lyde, kan man anvende frugten med billeder. Det er vigtigt at barnet benævner målordet 3-5 gange, så udtalen trænes. Samtidig kan du med fordel tilføje nogle af de tomme frugter – både dem hvor udtalen skal trænes, men også gerne nogen som er nemme for barnet at udtale, da dette giver barnet en succesfølelse undervejs. Man kan også med fordel inddrage skelneøvelser ved at arbejde med ”snydeord” og aftale, at barnet kun må placere frugter med én bestemt lyd i blenderen.
