

Spejlægspil

Træning af s-lyd, s-klynger og finalt -s

Fremgangsmåde: Først printes materialet ud. Obs! Det er vigtigt at printe ud på begge sider af papiret, så billedet automatisk er under spejlægget. Man bør derefter laminere materialet, da spejlæggene ellers vil være meget svære at vende.

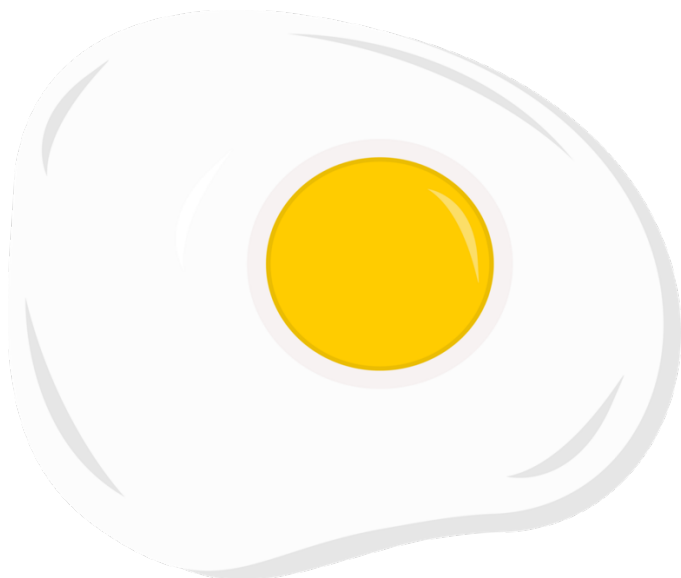

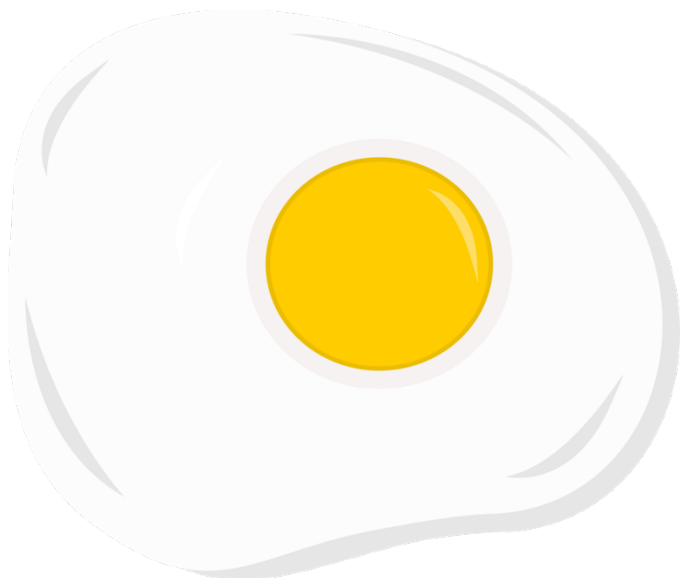

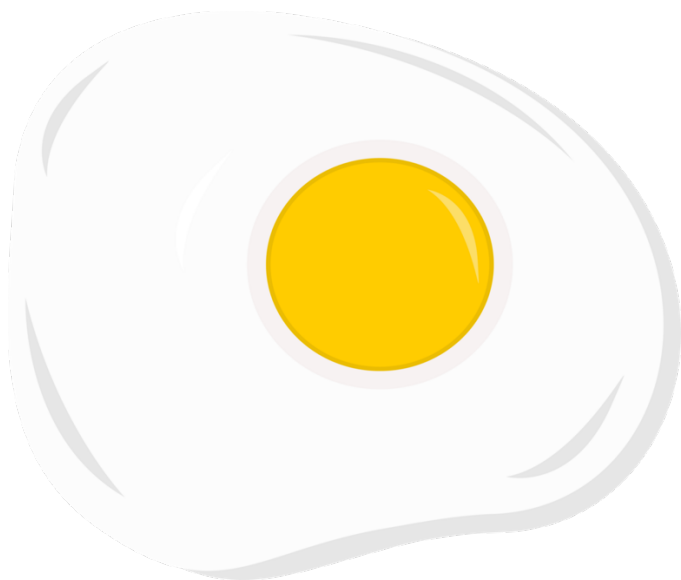

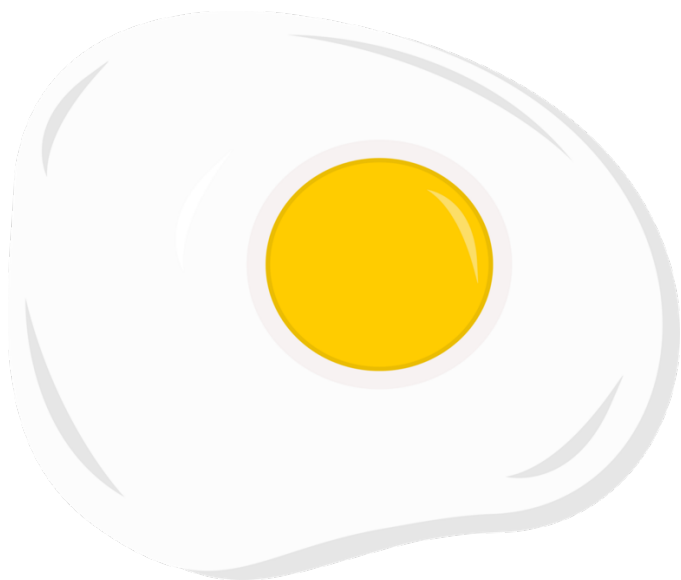

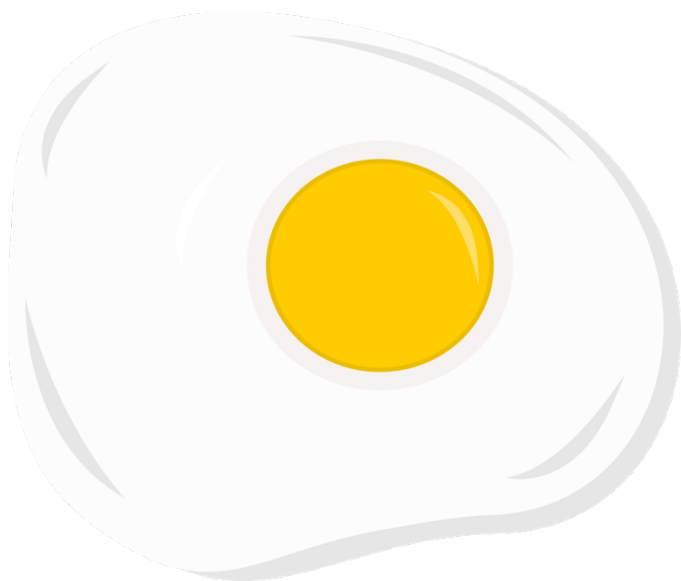

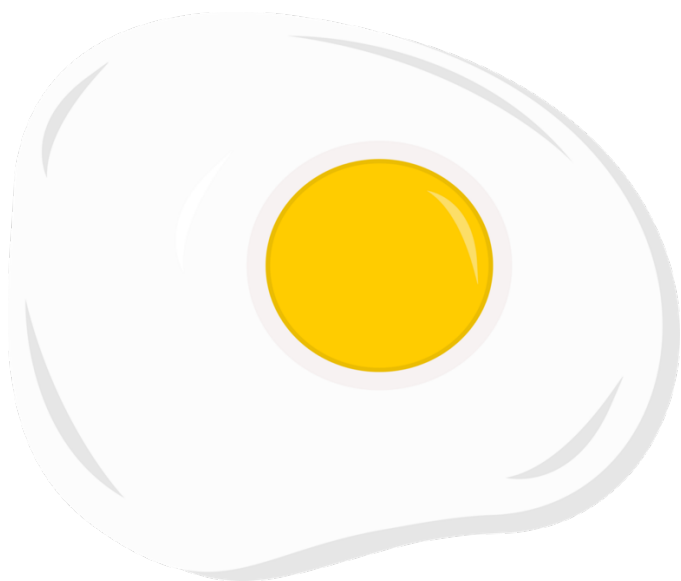

Udvælg hvilke lyde du vil arbejde med og klip de pågældende spejlæg ud. Alle spejlæggene placeres på panden. Barnet skal nu med en spatel tage ét spejlæg ad gangen og flippe det af panden, så billedsiden nu bliver synlig. Derefter skal barnet benævne ordet. Få gerne barnet til at gentage ordet 3-5 gange, så udtalen trænes ekstra. Når alle spejlæggene er fjernet fra panden, er spillet slut 😊
