

Sæt halen på dyret

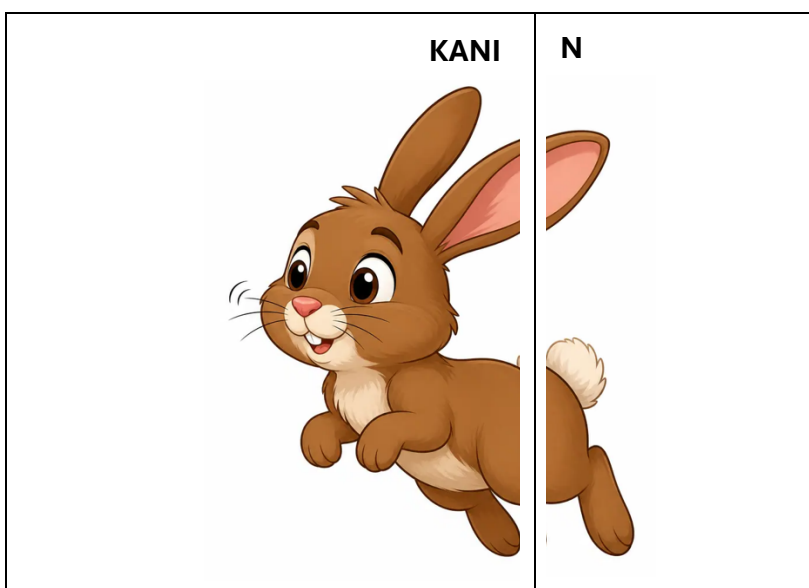

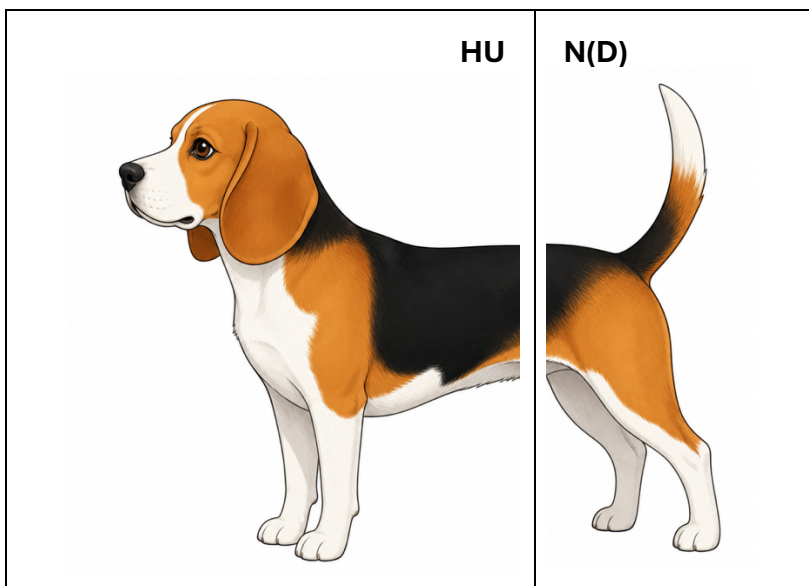

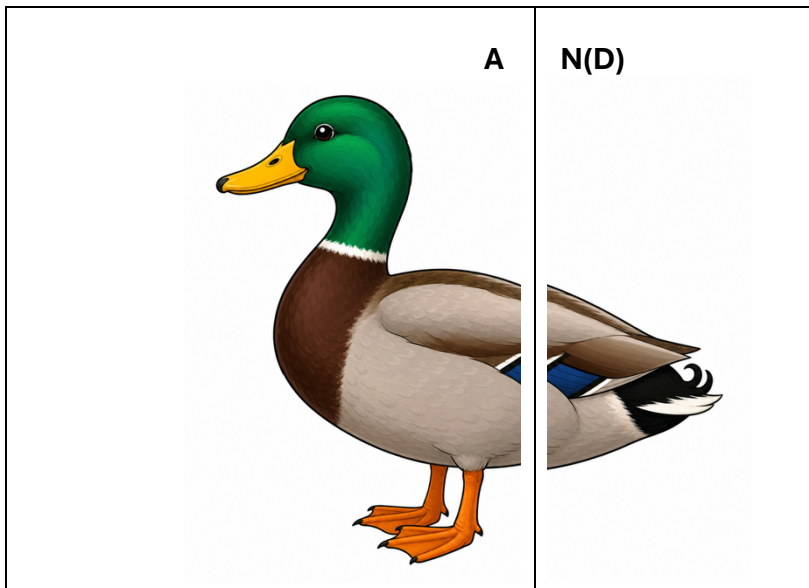

Træning af de finale lyde -n/-l

Fremgangsmåde: Dette spil træner barnets finale lyde. Print materialet, laminér evt. og klip alle brikkerne ud enkeltvis. Alle "halerne" placeres i en bunke for sig med billedsiden opad, så barnet har et overblik over udvalget. De andre billeder placeres med bagsiden opad.

Barnet skal nu trække et billede ad gangen. Når barnet trækker et billede, skal barnet finde den matchende "hale". Barnet skal placere halen på billedet og samtidig benævne ordet, så udtalen trænes (gentag gerne ordet 3-5 gange, så udtalen trænes ekstra).

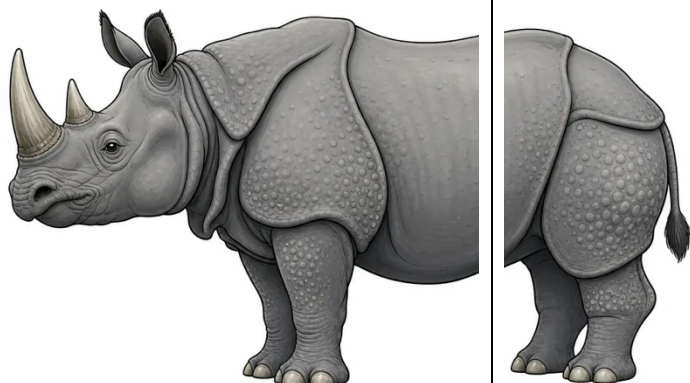

Sørg gerne for at barnet benævner ordet således, at barnet producerer den finale lyd når halen påsættes. På den måde visuelles den finale lyd for barnet, hvilket gør det nemmere for barnet at producere lyden.
