Pluk mango

Træning af /g/ - initialt, medialt og finalt

Fremgangsmåde: OBS. Sørg for at printe materialet ud på begge sider af papiret. Med fordel kan man derudover printe træet i A3-størelse, så mangoerne bedre kan nå at ”hænge” på træet.

Laminer gerne materialet, så mangoerne er nemmere at tage op og vende. Udvælg den/de lydkombinationer du vil arbejde med og klip mangoerne ud. Alle mangoerne placeres på træet med billedsiden nedad, så det blot ligner mangoer der hænger på et træ.

Inden spillet starter, så snak med barnet om den lyd I skal arbejde med – hvordan lyden produceres og lyder, og om barnet kan huske nogle ord der starter med lyden. Herefter kan spillet starte. Barnet skal ”plukke” én mango fra træet, benævne billedet (gentag gerne ordet 3-5 gange så udtalen trænes ekstra) og herefter placere mangoen i kurven. Fortsæt indtil alle mangoerne er plukket.
