

Med regn kommer der også en regnbue

Træning af r-lyd og r-klynger

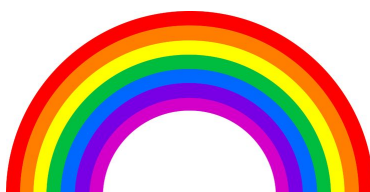

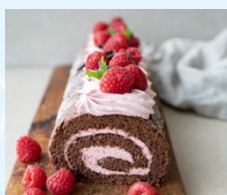

Fremgangsmåde: Udvælg den lydkombination du vil arbejde med, og print materialet ud. Klip skyerne ud og placer dem foran barnet med bagsiden opad. Under den ene sky gemmes regnbuen. Barnet skal trække én sky ad gangen og benævne ordet (gentag gerne 3-5 gange). Barnet skal fortsætte indtil regnbuen er fundet. Hvis barnet finder regnbuen hurtigt, kan man spille flere runder.
