

Spøgelsesjagt

Halloween spil til generel fonologitræning

Sværhedsgrad: Let (CV og 1-2 stavelser)

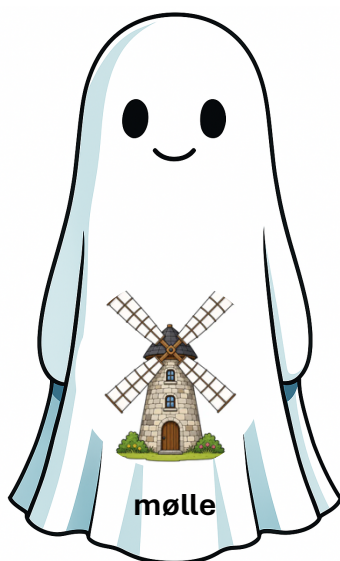

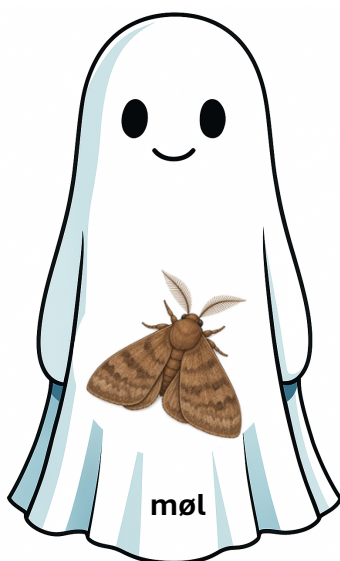

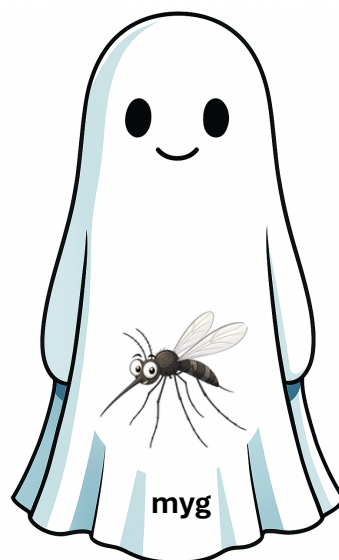

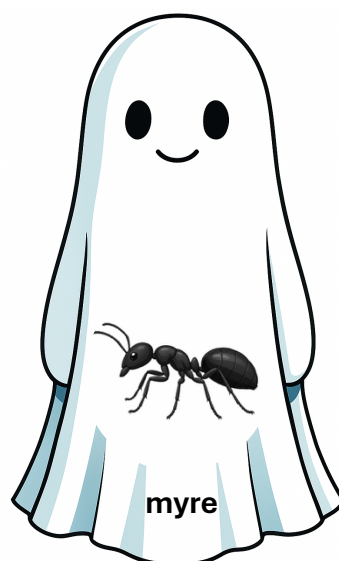

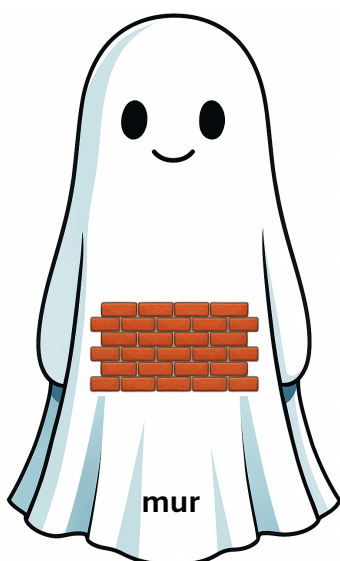

Fremgangsmåde: Udvælg den/de lyde du vil arbejde med, print materialet ud, laminér evt. og klip spøgelse ud. Barnet skal trække ét spøgelse ad gangen og benævne ordet. Fortsæt ligeledes med alle spøgelse. Men hov! Et af spøgelse holder et græskar! Hvor mange spøgelse kan barnet mon nå at trække inden barnet finder spøgelse med græskarret? Når spøgelse med græskarret er fundet, skal barnet sige ”BØ!” og derefter benævne alle de billeder der er blevet trukket igen! Nogle gange kan barnet derfor skulle gentage mange billeder, og andre gange få.

Man kan med fordel implementere skelneøvelser i dette materiale. Udvælg de to lyde du vil arbejde med, dvs. barnets erstatningslyd og korrekte lyd, fx k/t, s/d, r/h/, l/n, t/d mm. Hver gang barnet trækker et spøgelse, skal barnet udover at øve udtalen også fortælle hvilken lyd ordet starter med.

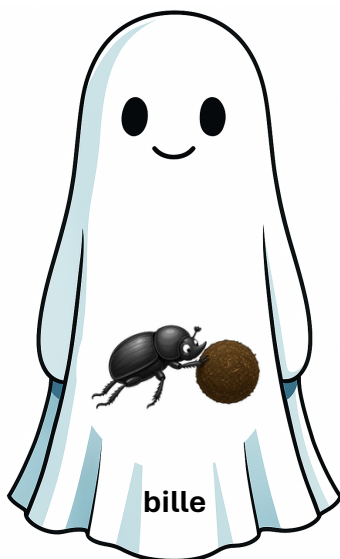

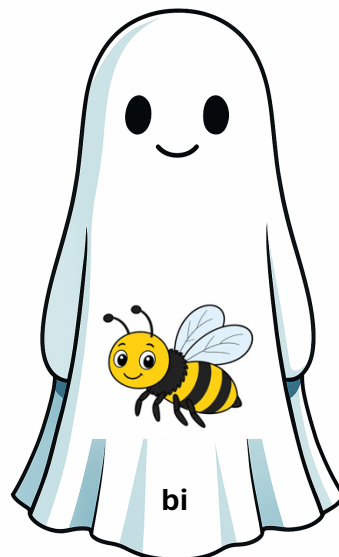

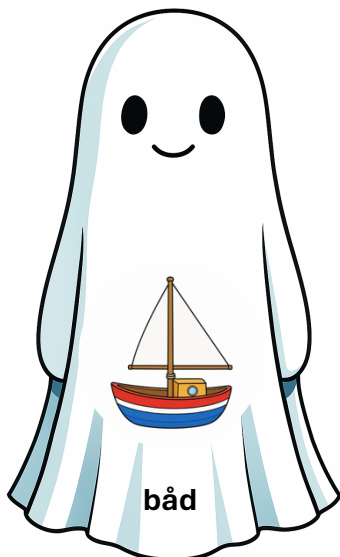

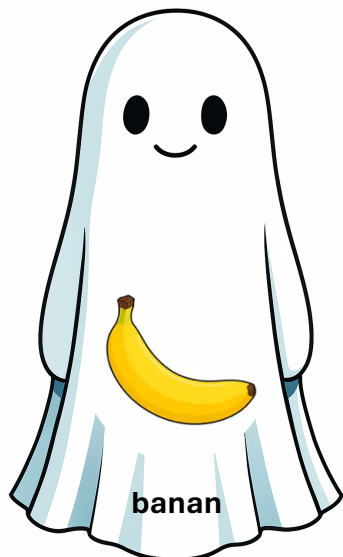

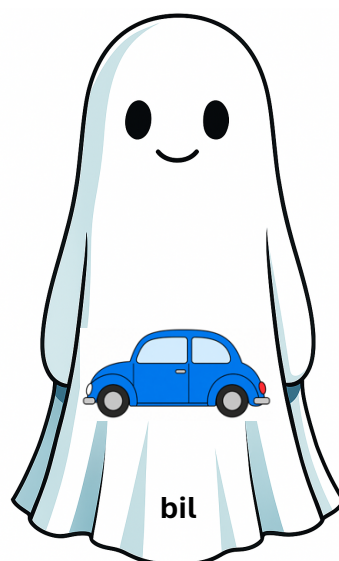

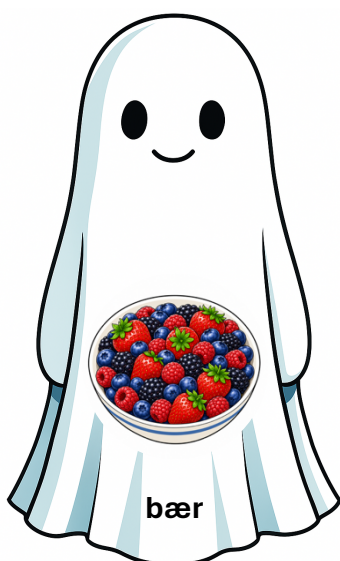

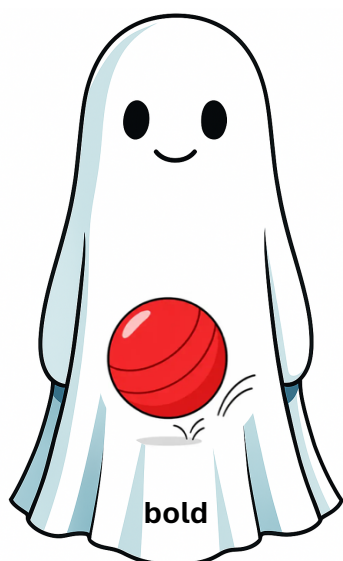

Udarbejdet og illustreret af Celine Pitt.
Materialet indeholder billeder fra KuraPlan.
