

Byg en snemand

Træning af s-lyd og s-klynger

Fremgangsmåde: Udvælg de lydkombinationer du vil arbejde med. Print materialet ud og laminér gerne, så brikkerne er nemmere at håndtere. Det er op til dig, hvis du vil spille med synlige brikker eller placere dem med bagsiden opad. Barnet skal trække én brik ad gangen, benævne ordet (gentag gerne ordet 3-5 gange), og placere brikken. Gradvist bygges snemanden op. Fortsæt indtil alle billederne er placeret og snemanden er færdig.

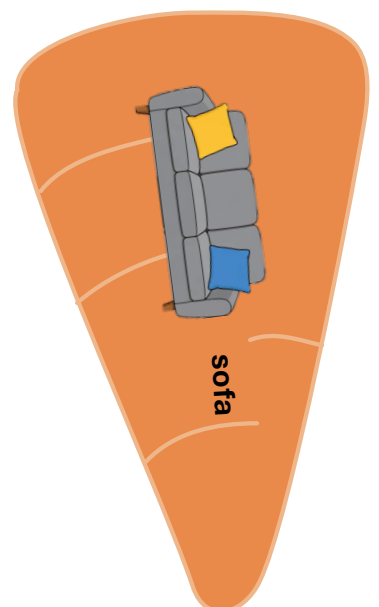

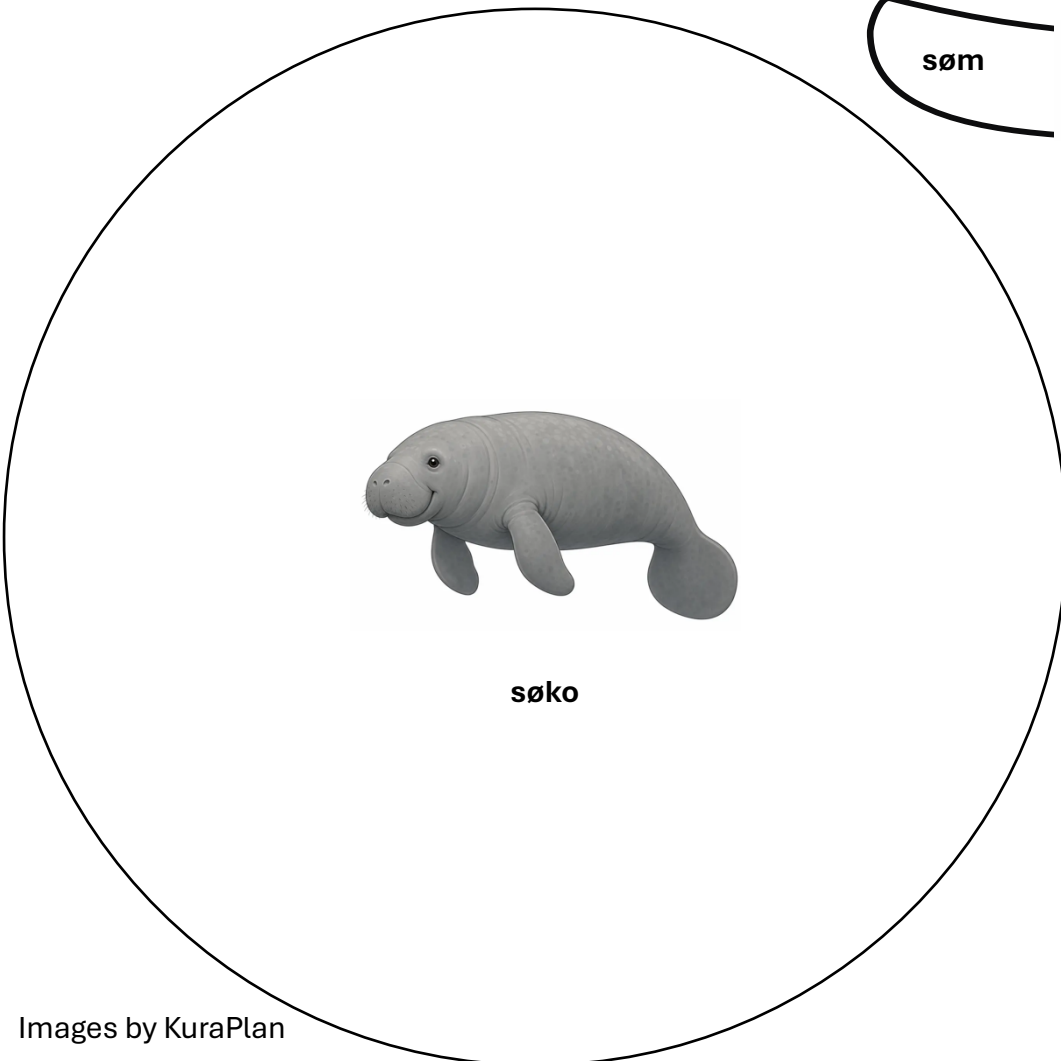

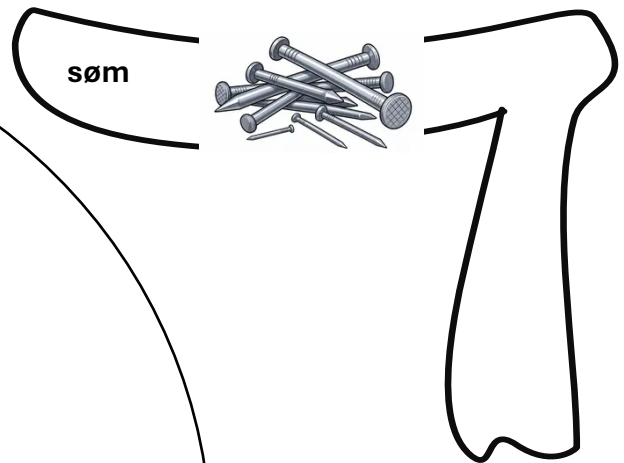

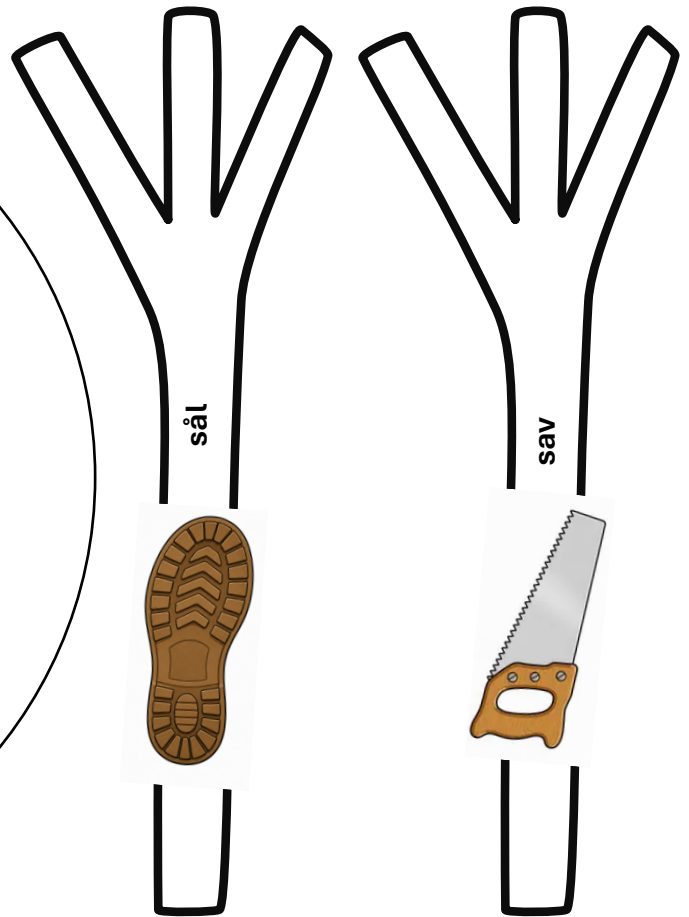

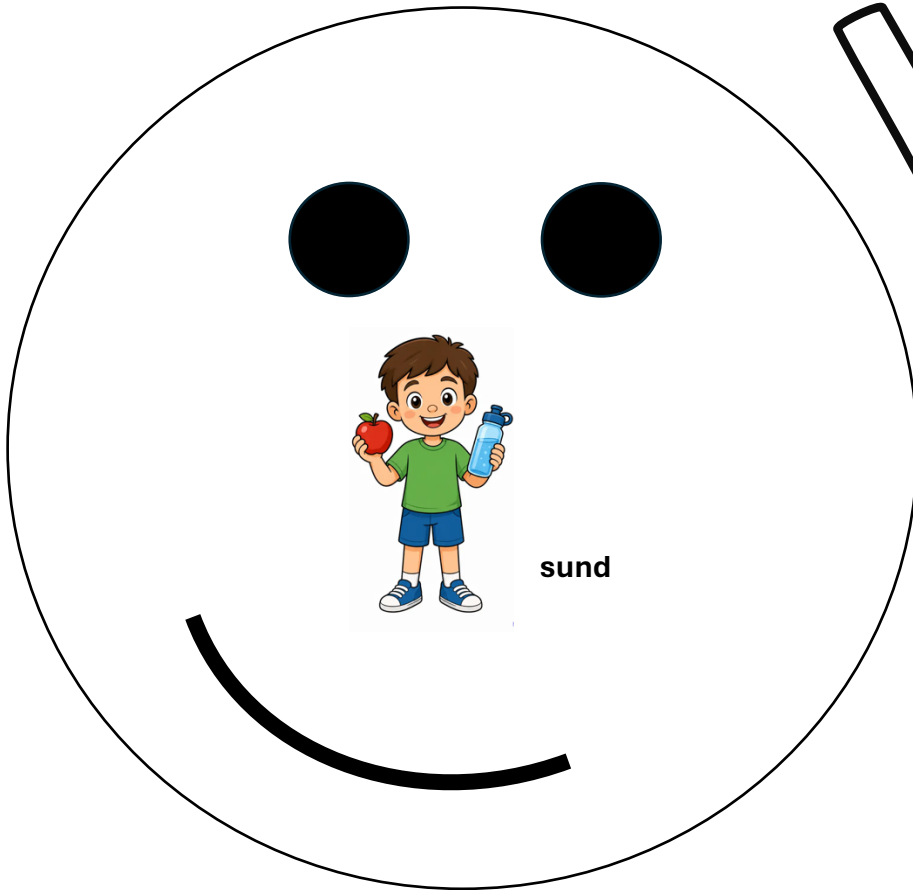

OBS. Man kan med fordel printe materialet i A3-størrelse, så brikkerne bliver nemmere at arbejde med.

Materialet er udarbejdet og illustreret af Celine Pitt.

Materialet indeholder billeder fra KuraPlan
