

Fyld julesokken med lyde!

Til generel fonologitræning

I dette spil skal barnet fylde julesokken med masser af sjove gaver.

Fremgangsmåde: Udvælg den/de lyde du vil arbejde med og klip billederne ud hertil. Klip også nogle billeder ud, som ikke starter med den konkrete ud, så barnet også skal skelne mellem lydende. Placer alle billederne med bagsiden opad og lad barnet trække ét billede ad gangen. Barnet skal benævne ordet så udtalen trænes, vurderer om ordet starter med den korrekte lyd og herefter placere billedet i sokken. Husk at det kun er ting med den korrekte lyd der må placeres i sokken. Fortsæt indtil alle de udvalgte billeder er placeret i sokken.

OBS. Print gerne sokken ud i A3-format, så billederne nemmere kan placeres i sokken.

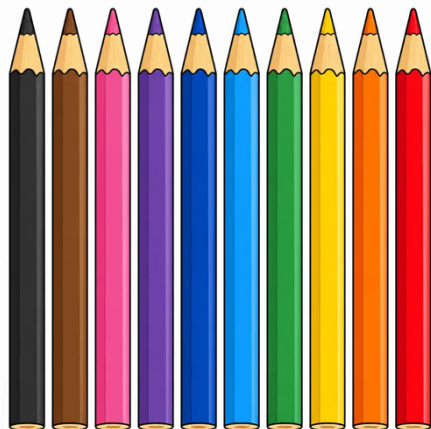

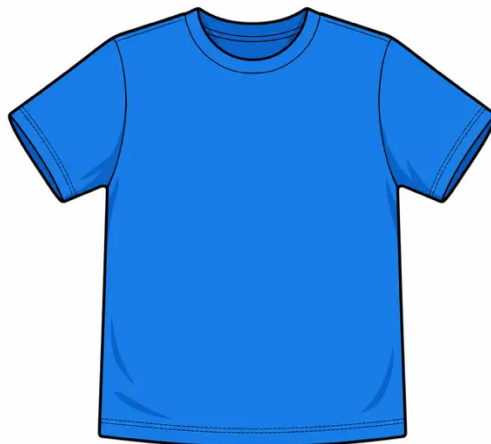

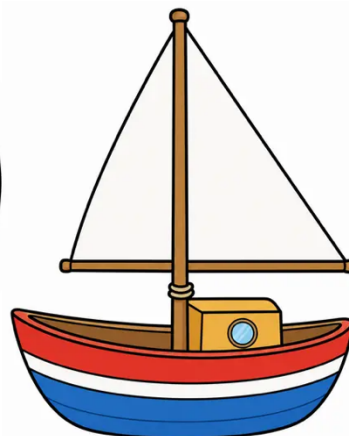

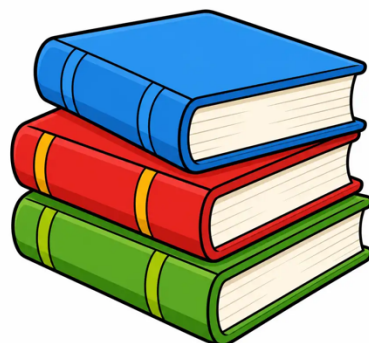

Materialet er udarbejdet af Celine Pitt.

Materialet indeholder billeder fra KuraPlan, AI-billeder og enkelte produktbilleder
