Påskejagt

Til generel fonologitræning

Fremgangsmåde: Udvælg den/de lyde du vil arbejde med. Print materialet ud og laminer gerne, så brikkerne er nemmere at arbejde med. Klip æggene ud og find en lille kurv (eller brug den nedenfor). Nu er I klar til påskejagt! Æggene placeres/gemmes rundt omkring i huset, i rummet eller stuen. Barnet skal nu rundt og finde æggene. Når et æg er fundet, skal barnet benævne ordet og gentage ordet 3-5 gange, så udtalen trænes. Herefter placeres ægget i kurven og I skal nu finde et nyt æg. Fortsæt indtil alle æggene er placeret i kurven.

Når man tilføjer noget bevægelse ind i legen, får børnene ofte lyst til at lege endnu længere – og jo længere I spiller, jo mere træning. Påskejagt er dermed en oplagt leg for mere variation i fonologitræningen ☺
