

Dino-Bingo

Til ordforrådstræning

Dette spil er del af et større tema om dinosaurer. Spillet træner særligt barnets ordforråd, og kan med fordel anvendes i kombination med fx højtlesning eller temaarbejde om dinosaurer, så barnet allerede kender lidt til dyrene på forhånd. Spillet kan spilles 1:1 med et barn, men kan med fordel også anvendes i mindre grupper (der er spilleplader op til 6 børn).

Fremgangsmåde: OBS. Hvis du spiller med ét barn, skal du blot printe de to første spilleplader ud + spillebrikker. Hvis du derimod spiller med flere børn og dermed med flere spilleplader, skal du også printe fodsporbrikkerne og klippe dem ud. Dette skyldes at flere børn kan sidde med det samme billede, og man lægger derfor fodsporene ned på spillepladen i stedet, når der er et match.

Barnet/børnene skal trække ét billede ad gangen, benævne ordet og herefter placere brikken (eller et fodspor) på det givne billede. Den der får en række eller pladen fyldt først, skal råbe "DINGO!".
