

På land, i vand eller i luften?

Fremgangsmåde: Print billederne ud, laminér og klip ud. Print dernæst oversigten ud i A3-format – OBS. denne downloades separat. Placér oversigten foran barnet og snak med barnet om at I nu skal kategorisere dinosaurerne efter om de lever på land, i vand eller i luften. Placér dernæst alle dinosaurerne med bagsiden opad. Barnet skal trække én dinosaur ad gangen, benævne hvad den hedder og dernæst placere dinosaurer korrekt. Fortsæt indtil alle dinosaurerne er placeret.

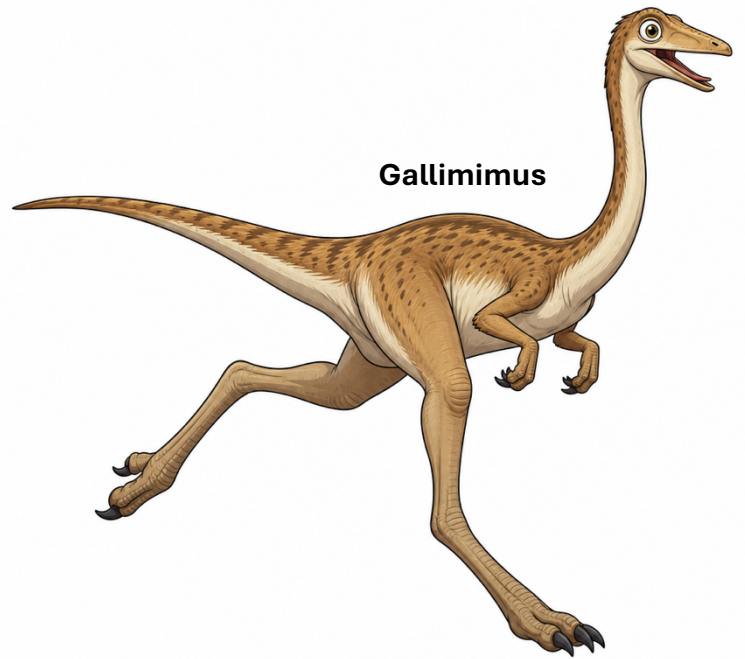

For at træne barnets sætningsdannelse og automatisering af lyde, kan man passende arbejde med sætninger, fx ”Stegosaurus bor på land” eller ”Mosasaurus kan svømme”.
