Monstrene spiser former

KATEGORI: MAD

Sprogspil til træning af former og ordforråd

Fremgangsmåde: Udvælg de former du vil arbejde med og klip monstrene ud – du kan arbejde med nogle af monstrene eller med dem alle sammen på én gang. Du kan med fordel printe formmonstrene ud i A3-format så billederne bedre passer gennem munden. Laminér gerne og klip derefter munden ud. Klip også de tilhørende billeder ud.

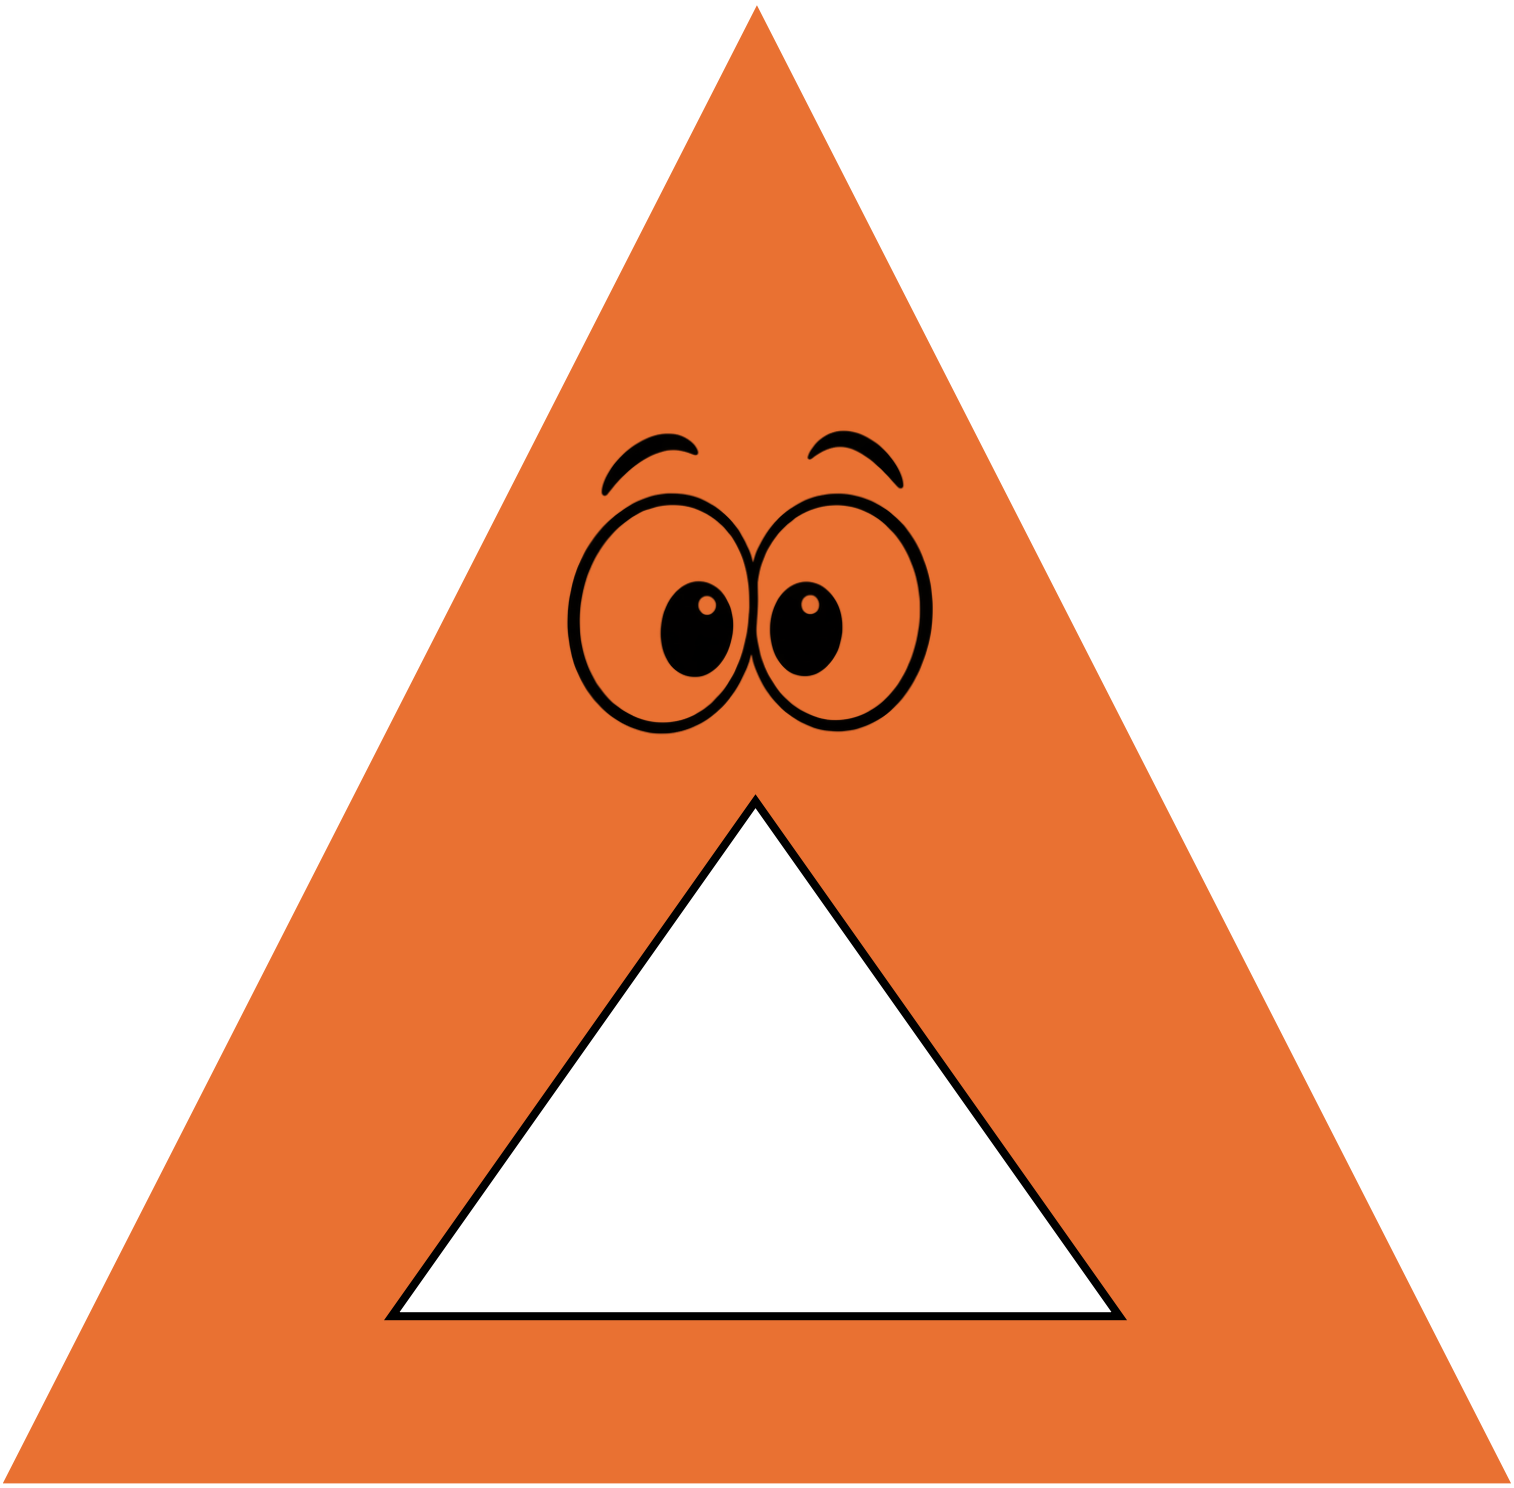

Fortæl barnet at monstrene er rigtig sultne, men at de kun vil spise deres egen form. Gennemgå de forskellige former. Måske barnet allerede kender noget der er trekantet eller firkantet, som monstret kan spise? I skal nu gå på jagt efter de forskellige former. Gem billederne rundt omkring i køkkenet eller læg dem blot med bagsiden opad på bordet.

Spillet kan laves 1:1 med et barn men kan med fordel også anvendes med en mindre gruppe. Fortsæt indtil alle brikkerne er placeret i de respektive figurer. Hvilket monster spiste flest?

TIP: Du kan også gå på jagt i køkkenet efter rigtige genstande, som kan ”fodres” til monstrene. Dette er også rigtig god træning! ☺
